HVAC SUPPLY NEW ENGLAND

CONTRACTOR INTRODUCTION

ENGINEERED FOR CANADIAN WINTERS. BUILT TO HEAT NEW ENGLAND HOMES.

A supply partner for HVAC contractors

Novair HVAC Supply New England serves HVAC contractors and installers with Novair heat pump equipment, installation supplies, and product information. Our team can help discuss system options for your project and identify the documents needed to plan an installation.

PRODUCTS AND SUPPLIES

Heat pump systems Ductless single-zone and multi-zone equipment, cold-climate models, and centrally ducted options.	**Installation supplies** Line sets, line set covers, stands, wall brackets, wiring, and related accessories.

GETTING STARTED

1. Introduce your business
Share your company, primary contact, business address, contractor license, and EPA Section 608 details.

2. Discuss your project
Tell us the equipment type, job location, and timing so the team can help with model selection and availability.

3. Confirm details before ordering
Ask us to confirm current pricing, stock, matched equipment, documents, and applicable warranty terms.
